Professional Summary

Dedicated Fintech System Engineer with 4+ years experience with expertise in digital banking, payment systems and ISO 8583/CBS integration. Experienced in ATM/CRM/POS certifications, API-based payments and middleware solutions, delivering projects for 35+ banks as well as payment system like VISA, Mastercard and NPSB. Skilled in fraud and data analysis and automation.

Core Competencies

- **Payment Systems:** Core Logic Development & Maintenance, CBS Certification & Integration.
- **ISO 8583:** Parsing, Manipulation & CBS Integration.
- **ATM/CRM/POS Solutions:** ATM Fund Transfer, Cardless Deposit, Cash by Code, CRM Certifications.
- **Digital Payments:** QR, IBFT, bKash Integration, Mobile Banking APIs, Greenpin Gateway.
- **Fraud & Security:** Real-time Fraud Analyzer, Automated Card Blocking, Security Protocols.
- **Automation & Development:** SQL, PL/SQL, Python, Batch Scripting, Report Automation.
- **ISO Parser :** Have build TIC/TCI,NPSB,VISA & Mastercard Iso 8583 parser

Skills

Programming

SQL, PL/SQL, Python, Pandas, Batch Scripting

Data Analysis

Python, Pandas, Excel

Database

Oracle, Postgres

Report & Automation

SQL For Report Development and scripting to automate manual works.

Payment Standards

ISO 8583, EMV (Basic)

Professional Experience

Fintech System Engineer

IT Consultants PLC.

June, 2022-Present

- **Core Logic Development & Deployment** – Designed, developed, tested, and deployed core logic for multiple fintech projects across 35+ banks in Bangladesh.
- **ISO 8583 Expertise** – Skilled in parsing, customizing, and enhancing ISO 8583 messages for seamless integration with CBS and external payment systems.
- **Data Analytics & Reporting** – Performed complex data analysis using Python, Pandas, SQL, and Excel. Developed automated reports with SQL & PL/SQL for operational and dispute management.
- **National Payments Switch (NPSB) Projects** – Directly collaborated on multiple initiatives, including multi-channel integration and key exchange mechanisms.
- **Fraud Detection & Prevention** – Implemented real-time fraud analyzer solutions capable of blocking cards before authorization; utilized data warehouse technologies for post-authorization fraud analytics.
- **Digital Payments & API Integration** – Delivered API-based integrations for mobile and web applications, enabling banks to provide credit and prepaid card features, IBFT, and real-time fund transfer services.
- **E-commerce & ACS Services** – Hand on experience on 3D Secure authentication and acquiring solutions to ensure secure e-commerce transactions; collaborated with Visa and Mastercard for ACS and payment gateway projects.
- **IBFT & Dispute Management** – Integrated IBFT services with Qcash and NPSB, and built reporting/analytics frameworks for dispute handling.
- **ATM/CRM/POS Solutions** – Led multiple certification projects covering cardless deposit, fund transfer, bill payment, ATM bKash cash-in, and advanced CRM/ATM features.
- **Bangla QR & Green PIN Services** – Implemented QR payment solutions and real-time PIN services (without physical terminals) for Qcash member banks.
- **Visa/Mastercard Acquiring & Certification** – Delivered acquiring solutions, certification processes, and CBS integration to support domestic and international transactions.

- **Foreign Remittance Integration** – Implemented and optimized solutions for cross-border remittance services, ensuring secure, compliant and real-time settlement for international transactions.
- **Client & Stakeholder Management** – Successfully collaborated with 35+ banks and multiple internal teams, demonstrating strong client handling, coordination and project management skills across complex fintech and payment integration projects.
- **Messaging & Alerts** – Worked with SMPP protocol for real-time SMS/OTP delivery and SMTP protocol to enable e-alert services for banks.
- **Automation & Middleware** – Automated end-to-end EP tool processes using batch scripting, ensuring seamless Base II file processing for member banks.
- **Middleware Solution**– Hand on work experience on middleware to streamline CBS side integrations.
- **Card Certification & Cross-Border Transactions** – Visa and Mastercard certification projects for both credit and prepaid cards, covering single-currency, multi-currency, cross-border, and DCC transactions to ensure compliance and seamless domestic/international payments.
- **HSM Migration** – Hands-on experience with Safenet and Thales 10k HSMs for secure key management and cryptographic operations
- **TSI & MFS** - Have implemented TSI for more than 20 banks and working with several bank with MFS project.

Education

B.Sc. in Computer Science & Engineering (CSE)

Daffodil International University

Passing Year: 2021

Projects

As a core team member at ITCPLC, the largest PSO in Bangladesh, I successfully delivered 40+ projects in collaboration with 35+ leading banks. Key initiatives included CBS integration, ISO 8583 field modification, ATM/CRM/POS certifications, API-based digital payments, fraud detection systems, Visa/Mastercard/UnionPay certifications, and HSM migrations.
